ETEBA Company Categories/Capabilities

ETEBA is a nonprofit trade association headquartered with more than 160 energy, technology, and environmental businesses. Their capabilities include all phases of services and technologies and their customers range from federal, state, and local governments to commercial enterprises. Many of these large and small businesses have been working at sites owned by the U.S. Department of Energy (DOE) and other federal agencies for decades, giving them invaluable site knowledge. The expertise and capabilities of ETEBA companies give their customers the support needed to complete their missions safely and cost effectively with attention to quality control and assurance.
